OLSVOLD

Ol'svol'd Art Gallery presents a unique collection «7 Steps to the Lord» that embodies the whole spirit of the Ol'svol'd Tsvetnosti project

TSVETNOSTI - paintings are unique and very specific creations in the whole world, related to the genre of sacred art. These paintings are created by our artist - Ol'svol'd in a deep state of meditation, with the technique that can not be explained in a common way. However, these artworks have a powerful energy value, scientifically justified, and are devoted to a special mission of improving the world community, preserving the Earth, restoring harmony, peace and prosperity in it.

The creator of the paintings is Ol'svol'd, was born in Ukraine. He paints his paintings in the style of abstraction and New Age Sacral Art in a meditative state. These are energy-vibrational paintings, to be more precise, they are new phenomena in the life of mankind in the field of thought transmission through colour scales and images of human perception. There are no analogues in the world!

In the process of painting the author passes through himself energies, incredible cosmic flows that spill on canvas. How the process of energy transition is happening, a question

that concerns many who first encountered this sacred art. Unfortunately, it is not yet possible to explain this process. It should be noted that many works of the artist can be contemplated from both sides and each of the parties has its own individual content.

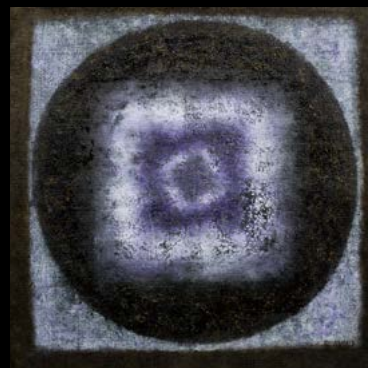

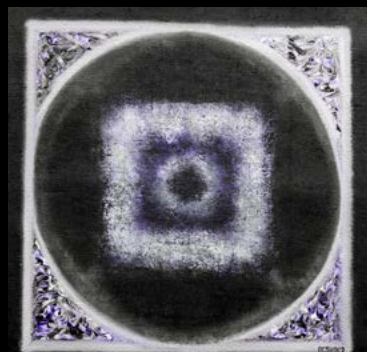

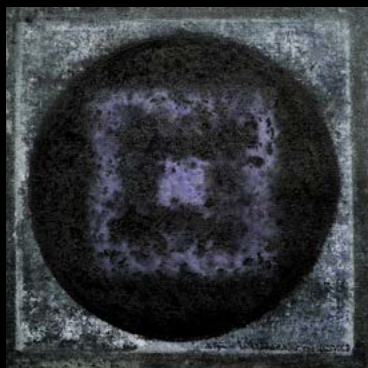

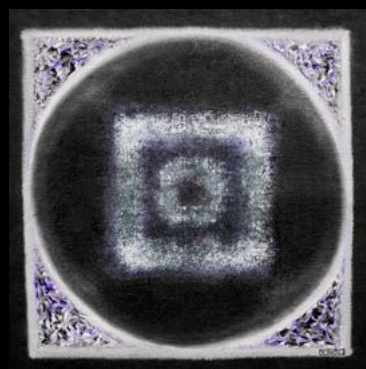

The phenomenon of Ol'svol'd creations attracts a lot of attention from real art lovers. Each Tsvetnosti painting is unique and has its own meaning and purpose. Their deep spiritual energy is able to direct all the activities of matter : help a person understand his mission in this life, get rid of many problems and achieve complete peace and harmony. It is impossible to understand it with the mind, you can feel it with the heart, accept it into your life and enjoy all these good changes.

Tsvetnosti create a powerful energy field that synchronizing with each human biofield, completely scan it, triggering the electromagnetic vibrations inherent in the human body and the healing process begins. The human body, adjusting to its natural purity, begins to work in a healthy mode and heals itself.
