

OL'SVOLD

TSVETNOSTI

«Those live, who do not live for themselves, who live the life for others»

- the slogan of OL'SVOL'D

Creator of Tsvetnosti – OL'SVOL'D.

He creates his works in a state of meditation, and the path to the possibilities of the Creator dates back to early childhood. At the age of 13, OL'SVOL'D was struck by lightning in the mountains. At the age of 26, at the visitation of the Blessed Virgin Mary, on the day of Assumption of the Virgin Mary, the apostles appear to OL'SVOL'D (quite clearly: in full growth, in mantles, with distinct facial features). At the age of 32, OL'SVOL'D reveals the secret stories of Christianity for himself, through his relative (Spiritual Vatican Father). At the age of Jesus Christ, obviously in no way for tuitous, OL'SVOL'D celebrates his birthday simultaneously in Jakarta, Delhi, Dubai and Kyiv. In 2009 OL'SVOL'D chooses a spiritual guide – the Master of Heavenly Fire and begins to create Tsvetnosti together with his Teacher.

Purpose: the salvation of mankind through the construction of galleries around the world and the placement of energy-vibrational pictures there becomes the meaning of his whole life. For this reason, he renounces presidential ambitions, a million fortunes and shoulder straps. Subsequently, he reveals his personal Tsvetnosti and two philosophical treatises “The Penultimate Prophet” and “The Revelation of the Lord” to the world.

Events and Press

Tsvetnosties were presented at more than 60 large-scale events in Paris, Milan, Tbilisi, Prague, Miami, Florence, Everett (USA), London, Zurich, Washington, Basel.

On December 22, 2019 Ukraine marked Ol'svol'd as the “Sensation of the Year” at the Ukrainian Fashion Awards (the city of Kyiv). On January 19, 2020, at the international competition “WORLD RISING STARS AWARDS”, which took place in Tbilisi (Georgia), OL'SVOL'D received world recognition: the award “THE BEST ARTIST OF THE YEAR 2020”.

Importance of Tsvetnosti at the global level

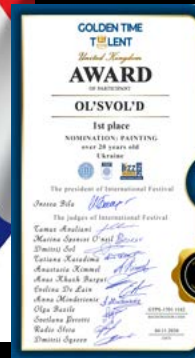

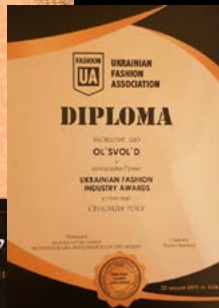

Tsvetnosti is an integral part of the mega-project «OL'SVOL'D TSVETNOSTI», which aims to place Tsvetnosti in galleries around the world, in order to change and transform through the purification and transformation of each individual who will interact with them. Thus, humanity will change and transform in the whole. The interaction with Tsvetnosti centers around contemplation and staying in their energy field. After that, a person's thinking, actions, and, as a consequence, the quality of life will change (business is established, relations are restored, financial flows are improving, hidden talents are revealed and much more ...) Each Tsvetnost is unique, created in one copy and has its own specific purpose, its impact on any sphere of life.

Influences

Leonardo da Vinci, Pablo Picasso, Mark Rotko

Education

1999–2004	Financial consulting Budapest, Hungary
1999–2004	Financial consulting Washington, D.C., United States
2000–2001	Vedic University Vlodrop, Netherlands
1998–1999	Financial consulting Vienna, Austria
1997–1998	Financial consulting Zug, Switzerland
1985–1989	Ternopil Financial and Economic Institute Ternopil, Ukraine
1980–1982	Lviv National University named after Ivan Franko Lviv, Ukraine

OL'SVOL'D's official appeal to the heads of states and authorities of the world.

The idea of a national breakthrough is now of vital importance. However, no national idea can be fully realized for the simple reason that it is impossible to create welfare and happiness in one country.

Mankind is one family and the Earth is our common home. We need to understand that we are all part of one universe and, as a result, we may come to the conclusion that to fight with each other is madness!

Life is not a struggle! Life is given to us for creation and self-improvement.

Mankind was created in order to become a co-author of its genius Creator, but has been asleep for many centuries, forgetting about its real mission.

The task of my paintings (hereinafter - TSVETNOSTI) is to awaken people's self-awareness as creators of their reality, working for construction, but not for destruction of our planet. The Great Power of creative Energy that brings generosity to the World, the light of love and boundless Grace are inserted in them.

TSVETNOSTI could influence on people and set a new format for their development, both in terms of health and intellect. These are the keys to managing the health, beauty and longevity of human life.

TSVETNOSTI is a chance for people to revive their planet, their health and their life potential. This is a chance to establish peace on the planet Earth. And all this is possible by creating new (or using existing) galleries in many countries around the world and placing these energy-vibrating canvases there.

The unique content of the gallery of TSVETNOSTI can find its rightful place in your country.

Me and the team of my adherents are ready for fruitful cooperation with every country in the world for free.

Sincerely yours, OL'SVOL'D

The healing features of Tsvetnosts and their unique effect on humans have been proven in several scientific studies. One of them was conducted by Kharkiv National University named after V.N Karazin, who investigated the effect of O'LSVOL'D's Tsvetnosti «Healing from diseases of the human circulatory system» on the human energy component, as well as indicators such as «blood elements» and the hormone «erythropoietin».

For the study a spectral-dynamic complex (SDC apparatus) was used. It allows to test the state of the human body according to many parameters, comparing them with the reference spectral characteristics recorded in the SDC database. There were analyzed the general state of body of the students who agreed to participate in the experiment and their functional state of the hematopoietic system. They were observed the O'LSVOL'D's Tsvetnosti «Healing from diseases of the human circulatory system» for about 20 minutes, after that scientists compared investigated parameters before work with Tsvetnost and after it.

Therefore, after contact with Tsvetnosti, the indexes of the energy information component of the body concerning the distribution of energy at the level of 7 major energy centers

were changed. Energy exchange was carried out in the direction of increase of the average potential (ie activation) of energy centers. Its condition is connected with the cardiovascular system and the hematopoietic system, which ensure the functioning of the physical body. At the same time, the activity of the energy centers of the head was reduced, which can be regarded as a «rest», a slowdown in mental activity or meditation.

Indicators such as: red bone marrow, erythropoietin and erythrocytes, mitochondria - have also been altered in the direction of growth. Red bone marrow activity was observed in 67% of the participants of the study (100% at the cellular level); erythrocytes and the hormone erythropoietin - also at 67% (against 50% before the beginning of contemplation of Tsvetnost); mitochondrial activity in 83% (vs. 33%). The relevant conclusions were presented by Professor, Doctor of Biological Sciences, President of the All-Ukrainian Public Organization «Ukrainian Association of Valeologists» - M.S. Honcharenko and also two Researchers, Doctors of Philosophy of Valeology of International Academy of Bioenergy Technologies - T.P. Kamneva and A.V. Melnykova

The Martian energy flows through this Tsvetnosti (picture). It is one of the most powerful protection for all mankind. This Tsvetnosti is an energy generator of O'LSVOL'D, who creates the Tsvetnosties. It spreads the vibrations of Love, Good, Truth, Justice and Divine Intent all around. It awakens human souls, which are strive for the Light, Harmony, Perfection, Self-education and Self-development. Tsvetnosti also helps to achieve positive results and fulfills your own missions and individual programs.
