OL'SVOL'D ART GALLERY

## OL'SVOL'D's official appeal to the heads of states and authorities of the world.

The idea of a national breakthrough is now of vital importance. However, no national idea can be fully realized for the simple reason that it is impossible to create welfare and happiness in one country.

Mankind is one family and the Earth is our common home. We need to understand that we are all part of one universe and, as a result, we may come to the conclusion that to fight with each other is madness!

Life is not a struggle! Life is given to us for creation and self-improvement. Mankind was created in order to become a co-author of its genius Creator, but has been asleep for many centuries, forgetting about its real mission.

The task of my paintings (hereinafter - TSVETNOSTIES) is to awaken people's self-awareness as creators of their reality, working for construction, but not for destruction of our planet. The Great Power of creative Energy that brings generosity to the World, the light of love and boundless Grace are inserted in them.

TSVETNOSTIES could influence on people and set a new format for their development, both in terms of health and intellect. These are the keys to managing the health, beauty and longevity of human life.

TSVETNOSTIES is a chance for people to revive their planet, their health and their life potential. This is a chance to establish peace on the planet Earth. And all this is possible by creating new (or using existing) galleries in many countries around the world and placing these energy-vibrating canvases there.

The unique content of the gallery of TSVETNOSTIES can find its rightful place in your country.

Me and the team of my adherents are ready for fruitful cooperation with every country in the world for free.

Sincerely yours,

OL'SVOL'D.
